▼ Description

As a student,

I want to create an account

So that I can save my flashcards.

Acceptance Criteria

Given I am a new user

When I provide a valid email, username, and password

Then my account is created successfully.

Given I already have an account

When I try to register with the same email

Then the system displays an error message.

Given my account is created

When I log in

Then I can access my personal flashcards.

Edit Topic

Description

As a student

I want to edit a topic

So that I can keep my study materials organized.

Acceptance Criteria

Seria interessante escrevê-los no padrão Given / When / Then:

Given

an existing topic

When

I change the topic name and save it

Then

the new topic name is displayed.

Given

an existing topic

When

I enter an empty topic name

Then

the system displays a validation error.

Definition of Ready (DoR)

O DoR que você escreveu está muito simples. Uma versão melhor seria:

Topic exists.

User is authenticated.

Acceptance Criteria are defined.

UI design is available.

Definition of Done (DoD)

Também pode ser mais completo:

Feature implemented.

Acceptance Criteria satisfied.

Unit tests passed.

Code reviewed.

Integrated with backend.

Ready for deployment
